<b>Project:</b> UMed Transit Improvements	
<b>Subject:</b> Open House	
<b>Date:</b> April 5, 2006	
<b>Location:</b> MOA Transit & Providence Drive	<b>Reporter:</b> Johnson

Below are Bill Johnson's notes from the UMed Open House.

- Comment from user: People waiting at the bus stops can get splashed by the buses pulling into the stop. This is a particular problem at the north bus stop at Alumni & Providence. A solution may be to install storm drains to reduce the drainage problems, or to install 'splash guards.'
- Comment from user: There is not a green arrow for East Bound left turns at Alumni & Providence. This is a problem for left turning traffic.
- Comment from user: Delete bus stop located SE of the Providence/Lake Otis intersection. Is this really needed?
- Comment from user: Curb cuts are needed at the UAA/Providence intersection on the south side of the road.
- Comment from user: Pedestrians WILL cross Providence Drive at Spirit. A crossing is needed here!
