

**Arlene Drive/Kingfisher Drive/Pelican Drive/Pelican Court Area Road Improvement District**  
MOA PM&E Project 06-019

**Homeowner/Occupant Survey**

The project team requests your help to ensure that the design for the upcoming street reconstruction in your neighborhood addresses deficiencies. The reconstruction is expected to include removal and replacement of existing curb, pavement, and road base; street light upgrades; and installation of subdrains with footing drain stub-outs to each parcel. (Footing drain stub-outs are collection points that property owners can connect into to route groundwater or run-off away from their property.)

Please take a few minutes to answer the following questions. Feel free to attach pictures or sketches to illustrate or describe an issue. You may request a meeting with the project team by calling the public involvement coordinator, Anne Brooks, P.E., at 272-1877.

Thank you in advance for filling out our survey.

Name:

Street Address:

Mailing Address: (if different from street address)

Phone, fax and e-mail address so we may contact you:

Preferred method of communication (check one)	
<input type="checkbox"/> E-mail:	
<input type="checkbox"/> Telephone:	
<input type="checkbox"/> Fax:	

Do you own or rent the property?

- Own
- Rent
- Other (please specify) \_\_\_\_\_

How long have you rented or owned this property?

Sometimes special conditions are attached to a property. Please explain any special conditions regarding your property.

Has the property ever experienced flooding from storm run-off in the following locations?

Crawl space or basement (circle which one)

Other (please specify) \_\_\_\_\_

Have you noticed any of the following problems along your street? (check all that apply)

Heavy traffic

Poor stopping conditions during winter

Speeding vehicles

Pedestrians in roadway

Poor drainage

Poor visibility at intersections

Other (please specify) \_\_\_\_\_

Please identify and describe any drainage problems in the area that need to be corrected.

Do you think the project should incorporate traffic-calming measures?  Yes  No

If yes, where?

Please note the location of areas where it is difficult to see oncoming traffic when entering or exiting the street (specify which intersection i.e., Pelican Drive at Arlene Drive)

The team will be upgrading the streetlights to meet new standards. Are there areas where the lighting can be improved? If so, please specify below.

Please elaborate on any other project issues the team should be aware of.

If you do not get a chance to hand this survey to the design team during their walk-through, please mail it back in the enclosed envelope.
