

Meeting Notice

Fairview Loop Rehabilitation Project No. 51774

You are invited to a public workshop to discuss a project to design and construct changes to Fairview Loop Road.

When: Thursday, June 17, 2010 from 6 p.m. to 8 p.m.

Where: Fairview Baptist Church, 3118 West Fairview Loop

Meeting purpose:

The purpose of the first meeting

- provide public awareness of the project,
- seek input on the community's goals and objectives for the project
- discuss location of pedestrian facilities
- identify types and areas of safety concerns
- meet the project team

Project Scope

The State of Alaska Department of Transportation and Public Facilities (DOT&PF) is beginning a project to rehabilitate Fairview Loop Road from its connection with Parks Highway on the east to its connection with Knik-Goose Bay Road on the west. The 11-mile project may result in repaving a restored roadbed with possibly wider lanes, shoulders, and pedestrian facilities. Minor realignment may be necessary to mitigate motor vehicle crash history.

The project is State funded through \$22 million in general obligation bonds. An additional \$4.5 million dollars is in the 2010 capital budget, however, approval of the Governor is required. It is likely that the geometry and right of way requirements will cause the total project cost to exceed the \$22 million budget. In that case, the project will be phased to enable construction within the funds appropriated.

Visit the project web site (see below), sign up to receive information on the project, comment using the on-line form or send us an email.

We welcome your input. Please send written comments:
