

Glenn Highway MP 34-42 Reconstruction

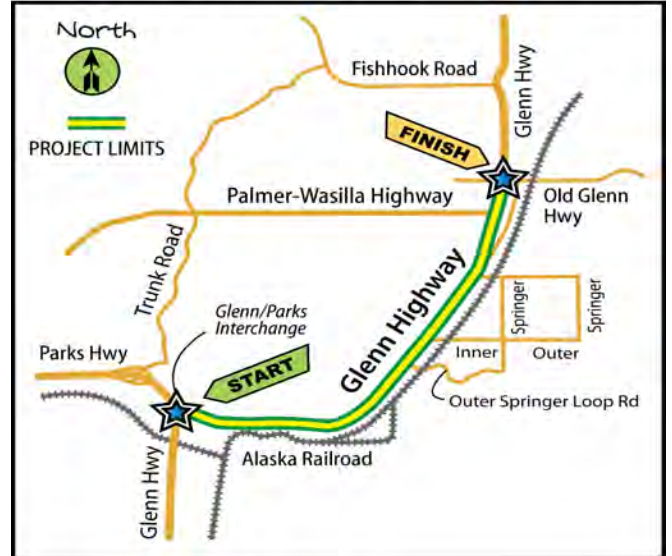

Parks Highway to Old Glenn Highway
ADOT&PF Project 58104/ Federal Project NH-0A1-5(24)

Project Scope

The Glenn Highway reconstruction project, Parks Highway to Old Glenn Highway, will reconstruct the Glenn Highway from milepost 34 to 42 to accommodate increasing traffic. It will add lanes, widen shoulders, accommodate turning movements at designated turn pockets, and add other traffic and safety improvements.

The re-evaluation of the 1993 *Glenn Highway, Parks (MP 35) to MP 109 Environmental Assessment* was completed in August 2011 for this phase of the Glenn Highway. FHWA determined there were no significant changes to the impacts identified in the 1993 *Environmental Assessment*. The design phase kicked off in October 2011. The local design review (35%) and Open House in May is an intermediate step towards the team delivering the 65% design by Fall 2012. The Fall 2012 design review and open house will be the last review before we start buying the additional ROW this project will require.

LOCATION MAP

Schedule

- Environmental Document re-evaluation — July 2008 to September 2011
- Project Design — October 2011 to November 2015
- Right of Way Acquisition — November 2012 to November 2015
- Construction begins April 2016 dependent upon future funding
